Assembly Instructions

All granny squares are joined using single crochet. Place the squares with right sides facing and crochet through

the outermost stitches using sc. When assembling, alternate the colors (light blue, peach, pink, fuchsia). First,

make 9 granny squares for the front and back of the bag (adjust according to your desired size). Then, create the

panels for the sides and bottom. Finally, join all the parts together.

Lining and Finishing

Cut the following fabric pieces (adjust to your bag size):

- 30 x 40 cm (front and back)

- 16 x 90 cm (sides + bottom)

- 2 x 18 cm and 18 x 18 cm (with zipper) or 20 x 20 cm (without zipper)

Sew the front and back fabric panels. Then sew the side and bottom pieces. Stitch all fabric panels

together

and place them inside the crochet bag. Secure the fabric lining to the top edge of the crochet bag

using a

sewing needle and invisible stitch.

Straps

For the straps, crochet two strips:

- 10 sc wide × 38 rows

Join the straps with slip stitches, fasten off, and sew them onto the bag. Add a round of single

crochet

along the bag's top edge for extra reinforcement if desired.

TIP!

Crochet small flowers using yarn scraps and attach them to the bag for a playful, decorative touch!
